[Why Attend: GC25 – Global Digital Collaboration on Wallets & Credentials](#)

Exclusive Access via FINOS Membership

Date: July 1–2, 2025 **Location:** Geneva, Switzerland

GC25 is a high-impact, invite-only working summit bringing together a unique assembly of leading global institutions, standards bodies, and open-source communities. Co-convened by the Linux Foundation and hosted in Geneva, this event is dedicated to collaboratively shaping the future of digital identity, credentials, and wallet infrastructure at a foundational level.

Unlike a public conference, GC25 is a focused working session environment where public and private sector stakeholders—from **ICAO, WHO, the World Bank, and UNDP to W3C, ISO, the Linux Foundation, OpenWallet Foundation, and FINOS**—will align on open standards, interoperability frameworks, and global trust models essential for a digital-first financial ecosystem and beyond.

Why FINOS Members Should Attend:

This presents a rare and significant opportunity for FINOS member firms to participate directly in shaping pre-competitive foundations critical to the future of digital finance. GC25 facilitates solution-focused collaboration across diverse, often siloed, sectors:

- Financial Services Institutions
- Government Agencies and International Standards Bodies
- Cloud Service Providers, Identity Providers, and Open Source Foundations

Your participation provides access to key working sessions covering:

- **Digital Identity Frameworks:** Discussing the requirements and architecture for digital identity solutions suitable for highly regulated industries like finance.
- **Open Wallet Architecture & Standards:** Deep dives into the standards and infrastructure needed for interoperable digital wallets, including Verifiable Credentials (VCs), Decentralized Identifiers (DIDs), and integration with payment systems.
- **Privacy-Preserving Credential Sharing:** Addressing the critical need for privacy and security in the exchange and verification of digital credentials.
- **Global Digital Trust Interoperability:** Working towards frameworks that enable seamless and trusted digital interactions across borders and sectors.

Exclusive Access for FINOS Members:

Attendance at GC25 is by invitation only. As a valued FINOS Member, we are providing exclusive access via a limited allocation of **complimentary tickets**. This is a unique benefit unavailable through public registration channels.

FINOS Members who attend will have the critical opportunity to:

- **Shape the Ecosystem:** Be seated alongside global standard-setters and policymakers, directly influencing the direction of the digital credential and identity ecosystem.
- **Drive Alignment:** Explore and contribute to precompetitive alignment on open protocols for digital identity, credentials, and payments that will impact the entire industry.
- **Represent Finance:** Ensure the specific requirements and perspectives of the financial services industry are represented in a crucial cross-industry and intergovernmental forum.

Recommended Attendees from Your Firm:

This high-level working summit is ideal for senior leaders and technical experts involved in strategic digital initiatives:

- Head of Digital Identity / KYC Strategy
- Chief Digital Officers or Digital Innovation Leads
- Regulatory & Public Affairs Leaders engaging with international bodies on digital policy
- Product and Architecture Leaders responsible for Wallet, Payments, or Identity solutions

How to Claim Your Spot:

FINOS has a limited, exclusive allocation of complimentary tickets for this invite-only event. To secure your firm's participation and claim one of these valuable spots, please register today through our member-only portal:

Register via FINOS:
