The new FINOS Charter

Starting in January 2018, we operate as 501c(6) non profit Foundation chartered to

- **Promote innovation and interoperability in financial technology** through industry-wide collaboration on open source software and open standards
- **Foster a vibrant technical community** comprising financial technology consumers, service and solution providers, and other constituents
- **Provide a trusted, neutral forum for community collaboration** by offering an efficient, compliant open source collaboration infrastructure and transparent, community driven technical governance.
