Problem Context Forces Solution Resulting Context

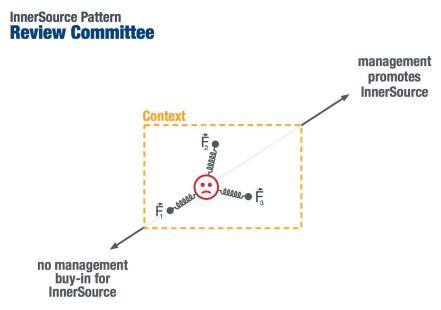

Short description. This describes what the issues and challenges are.

## A bit more about patterns

Problem Context Forces Solution Resulting Context

What are the pre-conditions of this problem?
This is unchangeable before the solution goes into place.

## A bit more about patterns

Problem Context Forces Solution Resulting Context

What makes the problem difficult? These are the constraints that can be changed at a cost.

## A bit more about patterns

Problem	Context	Forces	Solution	Resulting Context
			Verified or potential solutions to the problem. This solution will change some of the forces.
